

U Value Request Wall

We provide free-of-charge U value calculations and condensation risk analyses. This service is to help you confirm compliance with current Building Regulations when using our products for your construction project.

Our Wall U Value calculations are carried out in accordance with BS 6946 and the guidance in BR 443 –Conventions for U Value Calculations. To provide this service we require some detailed information regarding the construction. For external wall calculations please include details of the external render system used. We also require details of any mechanical fixings penetrating the insulation, also sizes and spacings of any timber battens or studs.

Please complete this form and e-mail to us at : enquiriesuk@sundolitt.com
